

Marijuana Legalization Rhetorical Analysis

Vivian Zhang, Madhav Soni, Nathalie Taing

Research Question

How has rhetoric about the legalization of marijuana changed over time?

Can we use the rhetorical patterns in articles about legalization to predict the legal status of marijuana at the time and region of publication?

Conclusions

Our classification process also indicated rhetorical linkages between the text written in an article and the legal status of marijuana in the time/region it was written. TF-IDF was our best model.
